BandSix

TOEFL iBT® PREP · 2026 FORMAT · B2–C1

TEACHER LESSON PLANS

Reading

17 day plans · 3-hour classes · 30–45 minutes teacher-led

Each plan gives you a minute-by-minute run sheet for the class, what to present, a board plan, likely errors, concept-check questions, support and stretch tasks, an exit ticket and the student work to collect.

Original material for the BandSix course. TOEFL® and TOEFL iBT® are registered trademarks of ETS.
Days marked “ETS lesson” match a free ETS TOEFL iBT® lesson plan: use your own copy of that plan in class.

HOW TO USE THESE PLANS

Reading: 17 classes at a glance

Every class lasts **3 hours**. You lead the first part (a 10-minute warm-up and **30–45 minutes** of presentation); students then work on the BandSix day for about two hours while you circulate, and the class ends with a 10-minute exit ticket. Times in the run sheet are a guide: the platform minutes come from the BandSix day itself. Strategy and tutorial stages are covered in your presentation, so students only skim them on the platform. A day unlocks only when every activity of the previous day is checked, so anything not finished in class becomes homework.

DAY	TITLE	TASK FOCUS	ETS LESSON TO USE IN CLASS
1	**Inside the new Reading section**	All Reading tasks	Reading Lesson 1 · Reading Introduction
2	**Complete the Words I: word-class clues**	Complete the Words	Reading Lesson 3 · Vocabulary
3	**Complete the Words II: the small words**	Complete the Words	–
4	**Complete the Words III: word endings and spelling**	Complete the Words	–
5	**Read in Daily Life I: notices, signs and ads**	Read in Daily Life	Reading Lesson 5 · Reading for details
6	**Read in Daily Life II: emails and messages**	Read in Daily Life	–
7	**Read in Daily Life III: schedules, forms and posts**	Read in Daily Life	–
8	**Academic Passage I: main ideas**	Read an Academic Passage	Reading Lessons 2 and 4 · KWL and Reading for main ideas
9	**Academic Passage II: details and NOT/EXCEPT**	Read an Academic Passage	–
10	**Academic Passage III: vocabulary in context**	Read an Academic Passage	–
11	**Academic Passage IV: why the author mentions…**	Read an Academic Passage	–
12	**Academic Passage V: inference**	Read an Academic Passage	–
13	**Complete the Words: speed and collocations**	Complete the Words	–
14	**Mixed module and time management**	All Reading tasks	–
15	**Know your enemy: distractor types**	Read an Academic Passage	–
16	**Adaptive mock test**	Full Reading section	–
17	**Review and personal study plan**	All Reading tasks	–

The 3-hour pattern

PHASE	TIME	YOUR ROLE
Warm-up	10 min	A quick activity that activates the day’s skill. Every plan suggests one.
Teacher-led	30–45 min	Present the strategy with the board plan, model it, and check understanding with the concept-check questions. On ETS lesson days, teach from the ETS plan and use BandSix for follow-up.
Platform	≈ 2 h	Students complete the BandSix day. Circulate, look at the checklist at the bottom of each day, give one-to-one feedback, and watch for the errors listed in the plan.
Wrap-up	10 min	Exit ticket and a preview of the next day. Remind students to send writing and recordings to Drive.

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

ETS LESSON · ALL READING TASKS

Day 1 · Inside the new Reading section

By the end of the class, students can explain the three Reading task types and the adaptive format, and take a short diagnostic to find your starting point.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Show three real texts on the screen for 20 seconds each (a bus notice, a short email, a textbook paragraph). Pairs guess: who wrote it, for whom, and why? Elicit that each Reading task uses one of these text families.	10
0:10–0:45	**Teacher-led**	**ETS lesson:** Reading Lesson 1 · Reading Introduction. Present the strategy (see **Teach this**). On screen with the class: What the section looks like.	35
0:45–1:15	**Platform**	Diagnostic: one of each task (Guided practice)	30
1:15–1:55	**Platform**	Diagnostic part 2 (Guided practice)	40
1:55–2:10	**Platform**	Word work: the Academic Word List (Toolkit)	15
2:10–2:20	**Platform**	Your baseline (Reflection)	10
2:20–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	30
2:50–3:00	**Wrap-up**	**Exit ticket:** each student writes their slowest task and one reading habit they will start this week (from the Daily exposure list). Preview the next day.	10

Teach this (30–45 min)

- Walk through the section: about 30 minutes, two modules, three task types. Draw the adaptive route (Module 1 → upper or lower Module 2) and stress that Module 1 accuracy decides the ceiling.
- Introduce the three core skills with one example each: main idea (what and why), scanning (names, numbers, key nouns) and meaning from context (sentence before and after).
- Model the diagnostic mindset: no dictionary, note the time each task takes, and treat today as a baseline, not a grade.
- Explain how BandSix works: days unlock in order, every activity must be checked, and the daily exposure list is part of the course.

Board plan

Reading ≈ 30 min · 2 modules · Module 1 decides Module 2
Complete the Words · Read in Daily Life · Academic Passage
Main idea · Scan · Context

Check understanding

Q: If you do badly in Module 1, what happens?
A: You get the easier Module 2, with a lower score ceiling.
Q: Can you go back to Module 1 during Module 2?
A: No. You can move back and forth only inside a module.

Watch for

- Students rushing Module 1 to 'save time'. Remind them accuracy there matters more than speed.
- Reading every word of a daily-life text before looking at the questions. Model question first, then scan.

Differentiation

Support: Let weaker students do the diagnostic texts in pairs, reading the questions aloud before the text.

Stretch: Fast finishers time themselves on the second diagnostic and write one sentence on which task felt slowest and why.

Collect

- Auto-scored results appear in the student’s progress report (My progress → Copy report).

Daily exposure (homework)

- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.
- Read the back of one product, sign or app screen in English. Say its purpose in one sentence.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

ETS LESSON · COMPLETE THE WORDS

Day 2 · Complete the Words I: word-class clues

By the end of the class, students can use the words around each gap to decide whether the missing word is a noun, verb, adjective or adverb, then complete it correctly.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Write five half-words on the board (e.g. 'impor___', 'develop___', 'the resea___'). Teams race to complete them and say the word class of each.	10
0:10–0:45	**Teacher-led**	**ETS lesson:** Reading Lesson 3 · Vocabulary. Present the strategy (see **Teach this**). On screen with the class: Tutorial: Complete the Words; How the task works; Watch the strategy on a paragraph.	35
0:45–1:10	**Platform**	Three paragraphs (Guided practice)	25
1:10–1:15	**Platform**	Word-class check (Exit check)	5
1:15–1:55	**Platform**	Extended practice: five more paragraphs (Guided practice)	40
1:55–2:15	**Platform**	Mixed review (Guided practice)	20
2:15–2:30	**Platform**	Word work: word families (Toolkit)	15
2:30–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	20
2:50–3:00	**Wrap-up**	**Exit ticket:** complete three new gaps and write the word class next to each answer. Preview the next day.	10

Teach this (30–45 min)

- Explain the Complete the Words pattern: first sentence complete; from sentence two, every second word loses its second half; the boxes show the exact number of missing letters.
- Teach the word-class routine: look left and right. Article → noun or adjective; 'to' or modal → base verb; 'has/have' → past participle; before a noun → adjective.
- Model the think-aloud from the platform (bees and farming) and narrate each decision: class, box count, topic, ending.
- Show the tutorial video (4 min) and pause after Step 3 to let students predict the next gap.

Board plan

Gap → word class? (look left/right) → box count → topic → ending (-s, -ed, -ly)

Check understanding

Q: After 'has' or 'have', what form of the verb do we need?
A: The past participle (developed, grown, taken).
Q: 'a serious prob___' with 3 boxes: noun or adverb?
A: Noun (problem): it follows an adjective.

Watch for

- Choosing a word that fits the meaning but not the box count (e.g. 'probably' for 3 boxes).
- Dropping plural -s or third-person -s because the word 'looks complete'.

Differentiation

Support: Give a printed list of the most common endings by word class to keep beside the screen.

Stretch: Ask strong students to write their own 4-sentence C-test paragraph for a partner, following the every-second-word rule.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Take any English paragraph. Cover the second half of every second word with your finger and try to say it. Two minutes a day builds this skill fast.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

COMPLETE THE WORDS

Day 3 · Complete the Words II: the small words

By the end of the class, students can complete grammar words (articles, prepositions, pronouns, auxiliaries) quickly, so you save time for the harder content words.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	'Small word bingo': read a paragraph aloud and students tick the, of, to, that, which, their, there on a bingo card as they hear them.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Half the gaps are grammar words.	35
0:45–1:15	**Platform**	Three paragraphs (Guided practice)	30
1:15–1:23	**Platform**	Quick decisions (Exit check)	8
1:23–2:03	**Platform**	Extended practice: small words at speed (Guided practice)	40
2:03–2:23	**Platform**	Mixed review (Guided practice)	20
2:23–2:38	**Platform**	Word work: prepositions that follow words (Toolkit)	15
2:38–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	12
2:50–3:00	**Wrap-up**	**Exit ticket:** write three pairs that are easy to confuse (then/than...) and a sentence for each. Preview the next day.	10

Teach this (30–45 min)

- Show that about half the gaps are short grammar words, and that students lose these points because they look easy.
- Work through the 'You see / Could be / How to decide' table: th_, th__, wh__, wh___, i_, o_, the__.
- Teach the two-pass method: first pass fills only grammar words, which fixes each sentence's structure; second pass does content words.
- Highlight agreement checks: these + plural, is + singular, than after comparatives.

Board plan

Pass 1: grammar words (the, of, that, which, there, than) · Pass 2: content words
than ≠ then · their ≠ there ≠ these

Check understanding

Q: 'larger th__' with 2 boxes: which word?
A: than (after a comparative).
Q: 'th___ results' with 3 boxes, plural noun after it: which word?
A: these (or those), because results is plural.

Watch for

- then / than and their / there / these confusion, which Spanish speakers often hear as the same word.
- Writing 'wich' or 'whitch': exact spelling is required.

Differentiation

Support: Weaker students do only Pass 1 on the first paragraph, check, then do Pass 2.

Stretch: Strong students time both passes and aim for under 90 seconds per paragraph.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.
- Read the back of one product, sign or app screen in English. Say its purpose in one sentence.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

COMPLETE THE WORDS

Day 4 · Complete the Words III: word endings and spelling

By the end of the class, students can choose the correct suffix for the word class you need and spell common academic words accurately.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Word-family ladder: give 'develop' and ask teams to build the noun, adjective, adverb and two verb forms in 60 seconds. Repeat with 'significant' and 'reliable'.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Endings tell you the word class.	35
0:45–1:15	**Platform**	Three paragraphs (Guided practice)	30
1:15–1:21	**Platform**	Spelling check (Exit check)	6
1:21–2:01	**Platform**	Extended practice: endings and spelling (Guided practice)	40
2:01–2:21	**Platform**	Mixed review (Guided practice)	20
2:21–2:36	**Platform**	Word work: spelling traps (Toolkit)	15
2:36–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	14
2:50–3:00	**Wrap-up**	**Exit ticket:** Spelling quiz: you dictate eight tricky words; students swap and mark. Preview the next day.	10

Teach this (30–45 min)

- Show that content-word gaps usually remove the ending, so knowing which endings belong to which class solves many gaps.
- Present the endings table (noun -tion/-ment/-ity, verb -ize/-ify, adjective -al/-ive/-ous, adverb -ly) with one academic example each.
- Teach the spelling list explicitly: environment, government, necessary, occurred, beginning, separate, development, recommend.
- Model checking the box count against the ending: signif____ (5) can only be 'icant'.

Board plan

Noun -tion -ment -ness -ity
Verb -ize -ify -ate
Adj -al -ive -ous -able -ic
Adv -ly

Check understanding

Q: 'The team will organ___ the event' (3 boxes): which ending?
A: -ize, because after 'will' we need a base verb.
Q: Which is correct: developement or development?
A: development (no e after develop).

Watch for

- Spanish-influenced spellings: enviroment, goverment, developped, recomend, necesary.
- Using the noun where the adjective is needed (It is benefit → It is beneficial).

Differentiation

Support: Students keep a personal spelling list of every word they miss today.

Stretch: Strong students find five academic words in a news article and write all their word-family forms.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Choose 5 academic words from today's paragraphs. Write all the word-family forms you know (e.g., develop, development, developing, developed).
- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

ETS LESSON · READ IN DAILY LIFE

Day 5 · Read in Daily Life I: notices, signs and ads

By the end of the class, students can identify the purpose and audience of short public texts and find specific details quickly.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Show three photos of real signs or notices from Santa Cruz (or the airport) and ask: what type of text, who for, and what must the reader do?	10
0:10–0:45	**Teacher-led**	**ETS lesson:** Reading Lesson 5 · Reading for details. Present the strategy (see **Teach this**). On screen with the class: Tutorial: Read in Daily Life; Purpose first, then details; model.	35
0:45–1:15	**Platform**	Four texts (Guided practice)	30
1:15–1:55	**Platform**	Extended practice: five public texts (Guided practice)	40
1:55–2:15	**Platform**	Mixed review (Guided practice)	20
2:15–2:30	**Platform**	Word work: daily-life vocabulary (Toolkit)	15
2:30–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	20
2:50–3:00	**Wrap-up**	**Exit ticket:** in pairs, write one notice (40 words) and two questions about it for tomorrow's warm-up. Preview the next day.	10

Teach this (30–45 min)

- Introduce Read in Daily Life: 15–150 words, notices, emails, posts, ads, schedules, with 2–3 questions about purpose, details and inference.
- Teach 'purpose first': name the text type in three seconds, then ask who wrote it, for whom and why.
- Model 'question first, then scan' with the parking notice from the platform; show that the correct option paraphrases the text.
- Name the word-match trap: an option that repeats exact words from the text is often wrong.

Board plan

Type? Who → whom → why?
Read the question → scan for the key word → read the full sentence
Paraphrase = right · Word match = trap

Check understanding

Q: Does the correct answer usually copy words from the text?
A: No. It usually says the same idea in different words.
Q: What do you read first: the text or the question?
A: The question, then you scan the text.

Watch for

- Choosing the option with the most copied words.
- Answering purpose questions with a detail (e.g. 'to advertise the app' when the app is only mentioned).

Differentiation

Support: Let students highlight the key word of each question before they scan.

Stretch: Fast finishers rewrite one wrong option so that it becomes correct.

Collect

- Auto-scored results appear in the student’s progress report (My progress → Copy report).

Daily exposure (homework)

- Photograph three English signs or notices this week (airport, product labels, apps). For each, say the purpose in one sentence.
- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.

READ IN DAILY LIFE

Day 6 · Read in Daily Life II: emails and messages

By the end of the class, students can infer relationships, next steps and implied information from emails and messages.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Use yesterday's student-written notices: pairs swap and answer each other's questions in 3 minutes.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Reading between the lines.	35
0:45–1:20	**Platform**	Four emails and messages (Guided practice)	35
1:20–2:00	**Platform**	Extended practice: four emails and messages (Guided practice)	40
2:00–2:20	**Platform**	Mixed review (Guided practice)	20
2:20–2:35	**Platform**	Word work: phrases in emails (Toolkit)	15
2:35–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	15
2:50–3:00	**Wrap-up**	**Exit ticket:** write one inference about yesterday's notice and underline the clue that supports it. Preview the next day.	10

Teach this (30–45 min)

- Focus on emails and messages: header first (From, To, Subject), then find the sentence that informs, requests, invites or confirms.
- Teach inference as 'what must be true': find the clue sentence that supports the option.
- Model eliminating options that go too far: logical but not supported by a specific phrase.
- Show how relationships are inferred (landlord, teammate, applicant) from tone and details.

Board plan

Header → purpose sentence → request/news
Inference = supported by a phrase
Too far = not in the text

Check understanding

Q: 'You're invited, as one of our valued members.' What can you infer?
A: The reader is already a member.
Q: If an option sounds reasonable but no sentence supports it, is it correct?
A: No.

Watch for

- Using real-life logic instead of the text ('rejected' when the email says 'next cycle').
- Missing the final instruction sentence, which is often where a question is answered.

Differentiation

Support: Give a 'four functions' card (inform, request, invite, confirm) to label each email first.

Stretch: Strong students write the reply to one of the emails in 60 words.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Change your phone or email language to English for one week.
- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

READ IN DAILY LIFE

Day 7 · Read in Daily Life III: schedules, forms and posts

By the end of the class, students can read non-linear texts (tables, schedules, menus, posts) by scanning the layout instead of reading line by line.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Bring a real bus or cinema timetable. Ask three questions and give 20 seconds each; discuss how students found the answers.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Non-linear texts.	35
0:45–1:23	**Platform**	Four texts (Guided practice)	38
1:23–2:03	**Platform**	Extended practice: tables, menus and posts (Guided practice)	40
2:03–2:23	**Platform**	Mixed review (Guided practice)	20
2:23–2:38	**Platform**	Word work: numbers and comparisons (Toolkit)	15
2:38–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	12
2:50–3:00	**Wrap-up**	**Exit ticket:** one calculation question from today's texts, done in under 60 seconds. Preview the next day.	10

Teach this (30–45 min)

- Non-linear texts are navigated, not read top to bottom: title, column headings, the row and column the question needs.
- Footnotes and asterisks hold answers; model the Writing Center schedule footnote question.
- For posts and reviews, find the writer's opinion through evaluative words (must-try, disappointed).
- Model calculations (durations, discounts) and stress: calculate, do not guess from price or position.

Board plan

Title → headings → row × column → footnotes *
Posts: opinion words
Tables: calculate

Check understanding

Q: A bus leaves at 20:00 and arrives at 06:00*. *Next day. How long is the trip?
A: 10 hours.
Q: Where do test writers often hide the answer in a schedule?
A: In the footnotes or small print.

Watch for

- Ignoring footnotes such as 'students only' or 'next day'.
- Arithmetic errors with percentages and overnight times.

Differentiation

Support: Allow a calculator and a ruler on the screen to track rows.

Stretch: Strong students design a timetable question with a footnote trap for a partner.

Collect

- Auto-scored results appear in the student’s progress report (My progress → Copy report).

Daily exposure (homework)

- Look at a real English timetable online (a train company, a cinema, a university calendar). Ask yourself three questions and find the answers in under 30 seconds each.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

ETS LESSON · READ AN ACADEMIC PASSAGE

Day 8 · Academic Passage I: main ideas

By the end of the class, students can find the main idea of a short academic passage and reject options that are too narrow, too broad or not mentioned.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	KWL: write today's passage titles on the board. Students write in 2 minutes what they Know and Want to know about one of them.	10
0:10–0:45	**Teacher-led**	**ETS lesson:** Reading Lessons 2 and 4 · KWL and Reading for main ideas. Present the strategy (see **Teach this**). On screen with the class: Tutorial: Read an Academic Passage; Where the main idea lives; model.	35
0:45–1:20	**Platform**	Two passages (Guided practice)	35
1:20–2:00	**Platform**	Extended practice: three passages, main idea first (Guided practice)	40
2:00–2:15	**Platform**	Mixed review (Guided practice)	15
2:15–2:30	**Platform**	Word work: academic verbs (Toolkit)	15
2:30–2:35	**Platform**	Reflection (Reflection)	5
2:35–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	15
2:50–3:00	**Wrap-up**	**Exit ticket:** the main idea of one passage in 10 words or fewer. Preview the next day.	10

Teach this (30–45 min)

- Follow ETS Reading Lessons 2 and 4 (KWL and reading for main ideas) as your core lesson.
- Teach where the main idea lives: first sentence of each paragraph plus the final sentence.
- Teach the three labels for wrong main-idea options: too narrow, too broad, not mentioned.
- Model with 'Why Cities Are Warmer' and ask students to label each wrong option before you reveal the answer.

Board plan

First sentences + last sentence = main idea
Too narrow · Too broad · Not mentioned

Check understanding

Q: An option is true but describes only one paragraph. Is it the main idea?
A: No, it is too narrow.
Q: Where do you look first to find the main idea?
A: The first sentence of each paragraph.

Watch for

- Choosing a 'too narrow' option because it is true and familiar.
- Spending too long on unknown words before getting the general idea.

Differentiation

Support: Students write a 10-word main idea for each paragraph before answering.

Stretch: Strong students write a too-narrow and a too-broad distractor for the Andean Terraces passage.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Read one article from The Conversation. Before reading, cover the headline and guess it after reading the first paragraph.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

READ AN ACADEMIC PASSAGE

Day 9 · Academic Passage II: details and NOT/EXCEPT

By the end of the class, students can locate factual details quickly and answer NOT/EXCEPT questions by checking each option against the text.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Scanning race: project a 200-word passage and call out a name, a number or a date; first to point at it wins.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Scan, then read closely; model.	35
0:45–1:20	**Platform**	Two passages (Guided practice)	35
1:20–2:00	**Platform**	Extended practice: three passages, details and EXCEPT (Guided practice)	40
2:00–2:15	**Platform**	Mixed review (Guided practice)	15
2:15–2:30	**Platform**	Word work: synonyms for scanning (Toolkit)	15
2:30–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	20
2:50–3:00	**Wrap-up**	**Exit ticket:** one EXCEPT question in under 90 seconds, with the line number of each eliminated option. Preview the next day.	10

Teach this (30–45 min)

- Scanning steps: choose an easy key word (name, number, capital), scan for it or a synonym, then read the full sentence plus one before and after.
- NOT/EXCEPT questions reverse the task: find three options in the text and cross them out.
- Model the EXCEPT think-aloud with the Andean Terraces passage.
- Stress: do not answer from general knowledge.

Board plan

Key word → scan (synonyms!) → read ±1 sentence
EXCEPT: find 3, cross out, the 4th is the answer

Check understanding

Q: In an EXCEPT question, how many options are in the text?
A: Three of the four.
Q: The question says 'cost'. What else might the text say?
A: Price, expensive, fee.

Watch for

- Answering EXCEPT questions as if they asked for a true statement.
- Scanning only for the exact word and missing synonyms (cost ≈ price).

Differentiation

Support: Give pairs a synonym list for common question words.

Stretch: Strong students write two EXCEPT questions for a passage of their choice.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.
- Summarize one article you read this week in three sentences, aloud, in under 60 seconds.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

READ AN ACADEMIC PASSAGE

Day 10 · Academic Passage III: vocabulary in context

By the end of the class, students can work out the meaning of unfamiliar words from context and word parts, and choose the option that fits the sentence.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Show a nonsense word in three sentences (e.g. 'The glorp was so heavy that two people carried it'). Students guess its meaning and explain which clue helped.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Four kinds of context clue.	35
0:45–1:20	**Platform**	Two passages (Guided practice)	35
1:20–2:00	**Platform**	Extended practice: three passages, vocabulary focus (Guided practice)	40
2:00–2:15	**Platform**	Mixed review (Guided practice)	15
2:15–2:30	**Platform**	Word work: prefixes and roots (Toolkit)	15
2:30–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	20
2:50–3:00	**Wrap-up**	**Exit ticket:** two new words from today, each with the clue type that helped. Preview the next day.	10

Teach this (30–45 min)

- Teach the four context clues: definition, example, contrast, cause/result, with signal words for each.
- Teach the vocabulary routine: cover the word, predict, compare with options, test by substitution.
- Warn that tests use less common senses of familiar words.
- Present the word-part table (bene-, mal-, trans-, sub-, -ject, -dict) as a backup strategy.

Board plan

Definition (is, means) · Example (such as) · Contrast (but, unlike) · Cause (so, because)
Cover → predict → substitute

Check understanding

Q: 'Unlike his gregarious brother, Tom preferred to be alone.' Gregarious means...?
A: Sociable (contrast clue).
Q: After you choose an option, how do you check it?
A: Put it into the sentence (substitution).

Watch for

- Choosing the most common dictionary meaning instead of the meaning in this sentence.
- False friends (actual, eventual, sensible) misleading the guess.

Differentiation

Support: Students underline the clue word before choosing any option.

Stretch: Strong students find three words in today's passages they guessed from word parts.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- For every new word you meet this week, write the clue that helped you guess it (definition, example, contrast or cause).
- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

READ AN ACADEMIC PASSAGE

Day 11 · Academic Passage IV: why the author mentions…

By the end of the class, students can identify the purpose of an example, a detail or a paragraph within an academic argument.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Read a short paragraph with an example in it. Ask: why did the writer include this example? Collect answers and group them (illustrate, support, contrast).	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Function, not content.	35
0:45–1:20	**Platform**	Two passages (Guided practice)	35
1:20–2:00	**Platform**	Extended practice: three passages, author's purpose (Guided practice)	40
2:00–2:15	**Platform**	Mixed review (Guided practice)	15
2:15–2:30	**Platform**	Word work: purpose verbs in answer options (Toolkit)	15
2:30–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	20
2:50–3:00	**Wrap-up**	**Exit ticket:** complete 'The writer mentions ___ to show that ___' for one passage. Preview the next day.	10

Teach this (30–45 min)

- 'Why does the author mention X?' asks what job X does, not what X is.
- Present the five functions and their option verbs: illustrate, provide evidence, contrast/challenge, explain a cause, introduce.
- Routine: find X, find the general idea it is attached to (usually the sentence before), choose the option that names that relationship.
- Model with the cane toad passage and show that wrong options describe X correctly but give it the wrong job.

Board plan

X is an example of what? (look at the sentence before)
illustrate · support · contrast · explain · introduce

Check understanding

Q: 'To illustrate' means…?
A: To give an example.
Q: Where is the idea that an example supports usually found?
A: In the sentence just before it.

Watch for

- Choosing an option that summarizes X instead of its purpose.
- Not knowing the purpose verbs (qualify, dismiss, account for).

Differentiation

Support: Give a card with the purpose verbs and simple Spanish equivalents for the first practice.

Stretch: Strong students explain the purpose of two details in a news article.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- When you read an article, pick one example the writer uses and complete the sentence: "The writer mentions ___ to show that ___."
- Summarize one article you read this week in three sentences, aloud, in under 60 seconds.

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

READ AN ACADEMIC PASSAGE

Day 12 · Academic Passage V: inference

By the end of the class, students can choose inferences that are strongly supported by the passage and reject those that go too far.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Show a photo (a wet street, people with umbrellas). Ask what students can infer and what they cannot. Separate 'small step' inferences from guesses.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: How far can you go?.	35
0:45–1:20	**Platform**	Two passages (Guided practice)	35
1:20–2:00	**Platform**	Extended practice: three passages, inference (Guided practice)	40
2:00–2:15	**Platform**	Mixed review (Guided practice)	15
2:15–2:30	**Platform**	Word work: signal words for inference (Toolkit)	15
2:30–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	20
2:50–3:00	**Wrap-up**	**Exit ticket:** one inference from today's passages with the clue sentence quoted. Preview the next day.	10

Teach this (30–45 min)

- An inference is not stated but clearly implied: a small step from a specific sentence, not a leap.
- Teach the routine: find the part referred to, ask 'what must be true if this is true?', reject extreme words and outside knowledge, check for reversals.
- Model with 'The Decline of Local Languages'.
- Practise saying why each wrong option fails (too strong, outside, reversed).

Board plan

Inference = must be true · small step
Reject: always/never/only · outside knowledge · reversed

Check understanding

Q: 'Children no longer learn the language at home.' Can you infer it will disappear immediately?
A: No. You can infer it is at risk.
Q: Which words are warning signs in inference options?
A: always, never, only, completely, all.

Watch for

- Accepting extreme options that match their own opinion.
- Reading cause and effect backwards.

Differentiation

Support: Students label every wrong option with its problem before checking answers.

Stretch: Strong students write one valid and one invalid inference about an opinion article.

Collect

- Auto-scored results appear in the student’s progress report (My progress → Copy report).

Daily exposure (homework)

- Read an opinion article. Write one thing the author clearly implies but never says directly.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

COMPLETE THE WORDS

Day 13 · Complete the Words: speed and collocations

By the end of the class, students can complete a paragraph in under 90 seconds by using collocations and sentence meaning, not just letter patterns.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Collocation snap: read the first word (conduct, raise, play, draw, pose) and teams shout the noun (research, awareness, a role, a conclusion, a threat).	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Words that travel together.	35
0:45–1:00	**Platform**	Four timed paragraphs (Timed task)	15
1:00–1:06	**Platform**	Collocation check (Exit check)	6
1:06–1:41	**Platform**	Extended practice: six more timed paragraphs (Timed task)	35
1:41–2:01	**Platform**	Mixed review (Guided practice)	20
2:01–2:16	**Platform**	Word work: collocations (Toolkit)	15
2:16–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	34
2:50–3:00	**Wrap-up**	**Exit ticket:** write five collocations from today's paragraphs. Preview the next day.	10

Teach this (30–45 min)

- Fast readers predict collocations instead of building words letter by letter.
- Present the collocation table by pattern (verb + noun, adjective + noun, noun + preposition, adverb + adjective).
- Teach the 90-second plan: 20 s read, 60 s fill, 10 s check; skip and return after 5 seconds.
- Rule: never leave a box empty.

Board plan

90 s = 20 read + 60 fill + 10 check
conduct research · raise awareness · play a role · impact on

Check understanding

Q: Do you 'rise' or 'raise' awareness?
A: Raise (it takes an object).
Q: What do you do if a gap does not come in 5 seconds?
A: Move on and come back later.

Watch for

- Prepositions after nouns (increase in, effect on) being translated from Spanish (aumento de → increase of).
- Getting stuck on one gap and running out of time.

Differentiation

Support: Students do the first timed paragraph untimed, then repeat it timed.

Stretch: Strong students aim for 75 seconds per paragraph and log their times.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Collect 10 collocations from your reading this week in a two-column list (verb + noun, adjective + noun).
- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

ALL READING TASKS

Day 14 · Mixed module and time management

By the end of the class, students can complete a mixed module under time pressure and plan your time across the three task types.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Show the three task targets (1.5–2, 1.5–2, 5–6 minutes) and ask students to estimate their current time for each from earlier days.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: A time plan for each module.	35
0:45–1:05	**Platform**	Mixed module: aim for 12 minutes (Timed task)	20
1:05–1:30	**Platform**	Mixed module 2: aim for 12 minutes (Timed task)	25
1:30–1:55	**Platform**	Mixed module 3: aim for 12 minutes (Timed task)	25
1:55–2:05	**Platform**	Word work: time management check (Toolkit)	10
2:05–2:11	**Platform**	Reflection (Reflection)	6
2:11–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	39
2:50–3:00	**Wrap-up**	**Exit ticket:** each student writes their personal time plan for a module. Preview the next day.	10

Teach this (30–45 min)

- Present a time plan for a module and the rules: answer everything, protect Module 1 accuracy, use Back only at the end.
- Explain strategic guessing: a marked best guess beats an empty answer.
- Run the first mixed module together with a visible class timer.
- Debrief: which task took longer than the target, and why.

Board plan

CW 1.5–2 min · Daily life 1.5–2 · Academic 5–6
Answer every question · Finish first, then go Back

Check understanding

Q: Is there a penalty for a wrong answer?
A: No, so answer every question.
Q: When should you use Back?
A: After finishing the whole module.

Watch for

- Going back during the module and losing the last questions.
- Over-checking easy items while leaving the academic passage rushed.

Differentiation

Support: Let weaker students complete the second module with 15 minutes instead of 12.

Stretch: Strong students try module 3 in 10 minutes.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

READ AN ACADEMIC PASSAGE

Day 15 · Know your enemy: distractor types

By the end of the class, students can recognize the five most common wrong-answer types and use them to eliminate options quickly.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Show one question with four options and ask students to name what is wrong with each wrong option before they look at the text.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: How wrong answers are built.	35
0:45–1:20	**Platform**	Two passages with labeled distractors (Guided practice)	35
1:20–2:00	**Platform**	Extended practice: three passages with labeled distractors (Guided practice)	40
2:00–2:15	**Platform**	Mixed review (Guided practice)	15
2:15–2:25	**Platform**	Word work: extreme vs. hedged words (Toolkit)	10
2:25–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	25
2:50–3:00	**Wrap-up**	**Exit ticket:** the distractor type that catches each student most often. Preview the next day.	10

Teach this (30–45 min)

- Present the five distractor types: word match, true but not the answer, too extreme, reversed, outside knowledge.
- For each type, show its defence (check meaning, reread the question, look for softer words, draw the cause arrow, point to the sentence).
- Model labeling distractors in the Microplastics passage.
- Ask students to look back at their wrong answers from Days 8–14 and label them.

Board plan

> Word match · True but not the answer · Too extreme · Reversed · Outside knowledge → 'No sentence, no answer'

Check understanding

Q: An option is true but answers a different question. Which type?
A: True but not the answer.
Q: 'Smoking is the only cause of lung disease.' Which warning sign?
A: Too extreme (only).

Watch for

- Students knowing the types in theory but not applying them under time.
- Over-suspicion: rejecting correct options that reuse one key term.

Differentiation

Support: Give a distractor checklist card to use during practice.

Stretch: Strong students write one distractor of each type for a passage.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Look back at questions you missed on Days 8–14. Label each mistake with a distractor type. Which type catches you most?

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

FULL READING SECTION

Day 16 · Adaptive mock test

By the end of the class, students can take a two-module Reading test under timed conditions and see which Module 2 route your Module 1 accuracy earns.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Two minutes of calm: review the time plan and the rules for the mock. Phones away, one tab only.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**).	35
0:45–1:15	**Platform**	Reading mock: two modules (Mock test)	30
1:15–1:55	**Platform**	Second practice module (not adaptive) (Timed task)	40
1:55–2:15	**Platform**	Challenge set: upper-level passages (Timed task)	20
2:15–2:23	**Platform**	Reflection (Reflection)	8
2:23–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	27
2:50–3:00	**Wrap-up**	**Exit ticket:** route, total score and the task type that cost the most points. Preview the next day.	10

Teach this (30–45 min)

- Brief presentation only (10 min): explain the mock conditions, the 60% routing cut and that there is no feedback until each module is submitted.
- Run the mock under test conditions with a class timer.
- After the mock, explain that the percentage is not a band score and that the route matters for comparison.
- Students then do the second practice module at their route level.

Board plan

Module 1: 12 min · Module 2: 10 min · 60% → upper route
No dictionaries · No talking

Check understanding

Q: What score in Module 1 sends you to the upper Module 2?
A: 60% or more.
Q: Is the mock percentage your TOEFL band?
A: No, it is for comparison only.

Watch for

- Students checking explanations between modules.
- Anxiety in Module 1 leading to rushing.

Differentiation

Support: Seat anxious students where they can see the class timer and remind them to breathe between texts.

Stretch: Students on the upper route also do the challenge set.

Collect

- Mock result: route and total appear in the student's progress report (My progress → Copy report).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.

ALL READING TASKS

Day 17 · Review and personal study plan

By the end of the class, students can analyze your results across the section, practice your weakest task once more and set a plan until test day.

Run sheet · 3-hour class

TIME	PHASE	WHAT HAPPENS	MIN
0:00–0:10	**Warm-up**	Students open My progress and write their three lowest Reading task bars on a sticky note.	10
0:10–0:45	**Teacher-led**	Present the strategy (see **Teach this**). On screen with the class: Read your own data.	35
0:45–1:10	**Platform**	Final mixed set (Guided practice)	25
1:10–1:50	**Platform**	Final module (Timed task)	40
1:50–2:05	**Platform**	Word work: final Academic Word List review (Toolkit)	15
2:05–2:20	**Platform**	Your plan to test day (Reflection)	15
2:20–2:50	**Platform**	Buffer: students finish any unchecked activity, read every explanation and send recordings or writing to Drive. Use this time for one-to-one feedback.	30
2:50–3:00	**Wrap-up**	**Exit ticket:** each student reads their plan aloud to a partner, who checks it has what, how long and when. Preview the next day.	10

Teach this (30–45 min)

- Show how to read the progress data: bars under 60% are priorities, mapped to the days to repeat.
- Teach 'redo, don't reread': repeat a weak day's practice without looking at old answers.
- Help each student draft a plan to test day: weak task types, days to repeat, a daily reading habit.
- Hold short one-to-one conferences while students do the final mixed set.

Board plan

Under 60% → repeat the day
CW 2–4,13 · Daily life 5–7 · Main idea 8 · Details 9 · Vocab 10 · Purpose 11 · Inference 12 · Traps 15

Check understanding

Q: Your Inference bar is 52%. Which day do you repeat?
A: Day 12.
Q: Is rereading old answers the same as redoing a task?
A: No. Redo it without looking.

Watch for

- Plans that are too vague ('read more'). Ask for what, how long and when.
- Students repeating only the tasks they already like.

Differentiation

Support: Give weaker students a ready-made weekly plan template to fill in.

Stretch: Strong students plan two full mock sections before test day.

Collect

- Auto-scored results appear in the student's progress report (My progress → Copy report).

Daily exposure (homework)

- Read one short English news article (BBC Learning English, VOA Learning English or The Conversation). Underline 5 words you could guess from context.
- Summarize one article you read this week in three sentences, aloud, in under 60 seconds.
- Add 5 new words to your word list with their part of speech and one collocation (for example: conduct research).

BandSix · original teaching material. TOEFL® and TOEFL iBT® are registered trademarks of ETS. BandSix is not endorsed by ETS.
